

## BUILDER'S NIGHT – 24 APRIL 2017

Builder's night is coming once again. There will be four categories. The categories are Scratch/Kit scale, Scratch/Kit sport, ARF scale and ARF sport. Everyone will have the opportunity to vote for first, second and third in each category. Cash prizes will total the allocated amount of \$200.00. Anyone bringing a qualifying aircraft and not winning one of the four categories will receive a basic prize of \$5.00 if there are 20 or fewer entries and \$4.00 if there are more than 20 entries. An entry is a member regardless of the number of aircraft entered. The remaining money will be divided by the number of categories with entrants. The rules are as follows:

1. Club members only
2. The plane may not have been flown
3. The plane has not won any WIRCS prize previously
4. The owner, entrant and builder are the same person
5. The aircraft entered need not be completed
6. Rotary wing aircraft may be entered. They will be considered in one of the four categories. To qualify for scratch/kit scale or sport, one or more parts of the aircraft must have been built by the owner.
7. One prize to a member. Prizes will be awarded in the order of categories shown above so if a member wins Scratch/Kit scale and Scratch/Kit sport, they will receive a prize for Scratch/Kit scale and the second place person in Scratch/Kit sport will get the prize for that category. After the four category winners are determined, prizes will be awarded to all other entrants. All prize will be in cash and the amounts rounded off to the nearest dollar.
8. The club board of directors shall resolve any disputes that arise.
